

# DELIVERED

**DEC2018**

Intact Projects are always looking at ways in help the wider community and giving to charitable organisations for worthy causes. Tournament of Minds (TOM) was no exception. What better way in helping our young to develop their minds, broaden their horizon and set challenges. TOM is a problem-solving program for teams of students both primary and secondary schools. The teams are required to solve open-ended challenges in disciplines from either:

- The Arts
- STEM (Science, Technology, Engineering and Mathematics)
- Languages Literature
- Social Sciences

We wanted to help our NSW students from Northmead Public School (NPS) participate in the Tournament of Minds which went international this year. We were proud to support this amazing organization and a BIG congratulations goes to Northmead Public School - NSW as Winners of the STEM challenge.

**CLIENT.** GRANVILLE TAFE

**PROJECT VALUE.** \$4.36M

**DURATION.** 9 MONTHS

**SIZE.** 3100M<sup>2</sup>

TAFE NSW Granville is committed to educating and empowering students to meet the needs and expectations of our ever-changing community.

Intact Projects were engaged as Head Contractor to complete TAFE NSW facility at Granville TAFE. Intact Projects worked closely with TAFE Facilities, SJA Project Management, NBR Architecture and JN Service Consultants.
